Employee of the Month

Our employee of the month is **Angie B, LPN**. She has been working in nursing homes since she was 16. She started out in dietary, then became a CNA/ Med Tech earning her way to LPN. She worked for a brief period at Walmart in the Jewelry Department, piercing ears. Her first choice in profession was to become a hairdresser, but she says she “was a beauty school dropout.”

The family friendly staff is what drew her to GLM where she has made some forever friends between the co-workers, residents and family. Angie stated, if she could trade places with anyone here for the day it would be with someone in activities because she would love more time to enjoy the residents, play games, sing karaoke, attend outings and do crafts.

She has been married for 25 years, has 2 daughters and 4 grandchildren which are her life. She loves taking walks by the lake with her dog, Fiona. Angie is grateful that she gets to bring Fiona to work with her and watch her bring joy to others. She and her husband enjoy traveling, road trips and camping. She has one grandparent left and tries to get the 5 generations together as much as possible. Rummaging, remodeling and refurbishing old furniture is one of her hobbies. When asked where she sees herself in 10 years she replied, “she hopes to still be with her “second family” at GLM.”

May is National Arthritis Awareness Month

Arthritis is a common ailment that affects nearly 54 million people in the United States.

There are two common types of arthritis: osteoarthritis and rheumatoid arthritis.

Osteoarthritis is the breakdown of cartilage. It usually affects hips, knees, feet, and spine.

Rheumatoid arthritis is an autoimmune disease that causes the immune system to mistake a person's tissue as foreign and attack

it. This causes swelling, pain, and stiffness.

If you suffer from arthritis, there are natural remedies that may help alleviate your arthritic pain.

- Apply essential oils of cinnamon, thyme, eucalyptus, or clove to areas of pain.
- Drink water with lime juice.
- Sit in a bathtub with hot (not scalding) water or soak hands and feet in a tub.
